Subject: RE: Quik-Therm CIS Testimonial

Here you go Ryan:

"I'm very happy with my decision to install Quik-Therm CIS in my basement. The installation was painless, the improved comfort in the basement was immediately noticeable, and it was the only system that allowed me to insulate around existing angle-iron foundation braces in my basement, increasing my livable square footage versus a batt & stud system."

Have a good holiday season.

Regards,
Derek
